Abstract (en)

A fastening device (1) for fastening a seat assembly (2) onto a sanitary bowl (3) comprises a mounting plate (5), to be fixed to the sanitary bowl (3), and a base body (6), joined or connectable to the seat assembly (2) and cooperating with the mounting plate (5); the mounting plate (5) has at least one pair of housings (30) configured to receive respective adjustment members (31); each adjustment member (31) being provided with a through central opening (38) for insertion of a bolt or another fastening element, and being configured so as to be inserted in a housing (30) in a position selected from a plurality of positions, so as to change the position of the adjustment member (31) with respect to the mounting plate (5) along two directions perpendicular to each other.
