Abstract (en)

The brick slip 100 comprises a front face 102, a rear face 104 vertically separated from the front face 102 and sides 106, 108, 110, 112 extending between the front face 102 and the rear face 104. A first of the sides 106 defines a tongue 114. The tongue 114 may be adapted to engage a recess of a further brick slip. The tongue 114 may have a different colour to the front face 102 so as to resemble the appearance of mortar. The brick slip 100 may be extruded such as in a co-extrusion process.
