Abstract (en)
A drawer refrigerator (104) includes an insulated cabinet (107), a drawer (144), a base member (112), a refrigeration system (152), and a center brace (158). The insulated cabinet (107) may define a refrigerated space and the drawer (144) may be disposed in the refrigerated space. The base member (112) may be provided with a first portion (112a) and a second portion (112b). The first and second portions (112a, 112b) may collectively define a portion of a machine compartment (142). The refrigeration system (152) may be configured to refrigerate the refrigerated space. The base member (112) supports the refrigeration system (152) and the insulated cabinet (107). The center brace (158) may be fixed to the base member (112) and may be configured to separate the first and second portions of the base member (112).
