Abstract (en)  
[origin: WO2022049349A1] Disclosed is a module for generating electricity comprising at least one photovoltaic panel (P), characterised in that it further comprises scaring means (E) for chasing away animals, and in particular birds, and detection means (D) capable of detecting the presence of animals that are close to or on the photovoltaic panel (P), the detection means (D), in the presence of an animal, delivering a presence signal capable of triggering the scaring means (E).
