Abstract (en)

[origin: WO2022058517A1] The present invention relates to a method for producing a mushy mass having preferably high porosity and/or elasticity, using (pseudo) cereals, pulses and/or oilseeds. The mushy mass is suitable for producing a very porous, very elastic, non-sticky dish. The present invention therefore also relates to dishes that can be produced by way of methods that are particularly suitable for people with specific health needs.
