Abstract (en)  
[origin: CA3193519A1] The invention relates to a production method for an electronics unit (1) and to an electronics unit which comprises a first component (2) with a plurality of first electrical contacts (3), said first component having an integrated circuit (6), and a second component (4) with a plurality of second electrical contacts (5). The first electrical contacts (3) and the second electrical contacts (5) are each electrically connected to one another via an electrically conductive structure (8) which comprises a plurality of electrically conductive particles (9).
