Abstract (en)
[origin: WO2022069273A1] A chisel, in particular for a demolition hammer, wherein the chisel has a free shank via which the chisel can be plugged along a working axis into an insertion sleeve of a tool fitting, wherein the free shank at least partially has a hexagonal cross section, and wherein at least one guide segment which modifies the hexagonal cross section and extends along the working axis is formed on a surface of the free shank.
