Abstract (en)
[origin: WO2022069183A1] The invention relates to a disinfection module (1) comprising at least one light source (2) emitting UV-C radiation (S) for disinfecting an object. According to the invention, the disinfection module (1) comprises a housing (3), in which the at least one light source (2) is arranged, the housing (3) being designed in a portable manner and has a connection element (4) for the connecting the at least one light source (2) to an electrical voltage source (5) for supplying the at least one light source (2) with electrical energy. The invention further relates to a vehicle comprising such a disinfection module (1).
