Abstract (en)

An object of the present invention is to provide an artificial leather having excellent flame retardancy while having moderate air permeability and a flexible texture, and having feels like natural suede and an elegant appearance, the artificial leather including a fiber entanglement including an ultrafine fiber having an average single fiber diameter of 0.1 μm or more and 10 μm or less, and an elastomer, in which one surface is a napped surface having a raised nap, the other surface is a flame retardant surface having a flame retardant, and the following requirements 1 and 2 are satisfied. Requirement 1: At least the flame retardant surface has a plurality of opening portions. Requirement 2: The flame retardant has a tackiness of 0.1 N/cm^2 or more and 2.0 N/cm^2 or less.
