Abstract (en)
[origin: CA3194373A1] The present invention relates to a fabric comprising three superimposed layers, wherein the first layer is a textile, the second layer is an adhesive and the third layer comprises cork, the fabric being characterised in that the adhesive is a biodegradable water-based adhesive containing at least one polymer. The invention further relates to the method for obtaining said fabric, to the use thereof in the production of objects, as well as to said objects as such.
