Abstract (en)  
[origin: WO2022075857A1] A prefabricated external wall element (13) comprises a floor-high plate-shaped core (2) of form-retaining insulating material such as PIR, in which supporting columns (14), e. g. of laminated wood, are incorporated, where the supporting columns at the ends are connected to a longitudinal furnishing (7) of plate material provided with a structural element (11) to form a U-shaped receptacle for the column ends and core.
