Abstract (en)

[origin: WO2022073836A1] The invention relates to a method for filling an energy storage device (14) in a motor vehicle (10) by means of a charging device (12), in which method, as soon as the motor vehicle (10) is arranged closer than a specified limit distance to the charging device (12), an electronic computing device (16) in the motor vehicle (10) provides to the charging device (12) a wirelessly transmitted identifier uniquely identifying a billing account associated with the motor vehicle (10), the energy storage device (14) is filled by means of the charging device (12), and the billing account is automatically billed as a function of the filling.
