Abstract (en)

[origin: WO2022073633A1] The invention relates to a method for processing value documents, in particular banknotes, and to a value document processing system. The method has the following steps: ascertaining first identification data, in particular serial numbers, by means of which the value documents contained in at least one batch of value documents can be identified, in at least one value document processing device; transmitting the first identification data to an external computing device, in particular via an Internet server; ascertaining first sorting data, which contains in particular serial numbers, in the external computing device by comparing the transmitted first identification data with specified second identification data, in particular serial numbers, by means of which value documents can be identified that are to be removed from circulation and/or are to remain in circulation; transmitting the first sorting data from the external computing device to the at least one value document processing device; and sorting the value documents contained in the at least one batch in the at least one value document processing device on the basis of the transmitted first sorting data.
