Abstract (en)
[origin: WO2022077126A1] A rollable sports device (1) comprises a frame (2), a handle (3) arranged on the frame (2), and three ball castors (4, 5, 6). The ball castors (4, 5, 6) are fastened on the frame (2) in such a way that the sports device (1) is able to roll in all directions of a plane. The frame (2) comprises a first frame part (21) and a second frame part (22), which are connected to each other at a connection site (20) and each have a free end. One of the ball castors (4) is fastened at the free end of the first frame part (21), one of the ball castors (6) is fastened at the free end of the second frame part (22), and one of the ball castors (5) is fastened at the connection site (20) of the first frame part (21) and of the second frame part (22).
