Abstract (en)

[origin: WO2022089828A1] The invention relates to a machine tool (1) for the shaping production of an article, comprising a tool receptacle (2), a tool feed (3), a reservoir (4) of tools (5) and a control device (6), wherein the machine tool (1) is configured to select a tool (5) from the reservoir (4) as a function of the article that is to be machined and to fasten it at the tool receptacle (2). The invention also relates to a method for producing an article using the machine tool.
