Abstract (en)
[origin: WO2022084324A1] The invention relates to a box of a cargo bike for receiving loads, comprising a bottom element (52), two side walls (54) that lie opposite one another, a rear wall (56) and a front wall (58). In order to be able to produce the cargo bike box (50) cost-effectively and simply, the latter is produced from plastic parts in a preferred embodiment. In order to improve safety, in particular in the event of a side impact, an impact element (90) is preferably arranged in both side walls (54).
