Abstract (en)

[origin: WO2022084307A1] A cooling element (10, 12) includes a container (20), the container (20) defining an internal volume (30) within one or more walls of the container (20). The volume (30) is air-tight sealed, and the container (20) is configured for containing dry ice (solid carbon dioxide), releasing carbon dioxide gas from the volume (30) and blocking ingress of ambient gas into the volume (30).
