Abstract (en)

[origin: WO2022100073A1] A method may include determining, based on an event record of an event, first event information associated with the event. The method may include determining, based on recording content regarding the event collected by at least one target recording device, second event information associated with the event. The method may further include determining, based on the first event information and the second event information, a corresponding relationship between the recording content and the event record, the corresponding relationship being used to retrieve, transmit, or store the recording content.
