Abstract (en)

[origin: WO2022089958A1] The invention relates to a cartridge filter for a suction device (10), wherein the cartridge filter is provided for being fixed on a filter basket (40) of the suction device (10). In order to provide a cartridge filter of the type mentioned at the outset, which is constructed in a simple manner and which can be connected to the filter basket of a suction device in a simple and safe manner, according to the invention a filter base (112) is provided, on which is arranged a fixing device (68) for establishing a detachable fixing connection of the cartridge filter to a mating fixing device (70) of the filter basket (40), and a filter medium region (114) is provided, which is non-detachably held on the filter base (112), wherein, in order to establish and detach the fixing connection, a movement of the cartridge filter as a whole relative to the filter basket (40) is provided.
