Abstract (en)

[origin: WO2022089977A1] The invention relates to a method for operating a cooking appliance (2), and a corresponding cooking appliance (2) having a cooking chamber (4) for receiving a product to be cooked (6), a treatment device for treating the product to be cooked (6) and a control unit (14) for controlling the treatment device depending on a treatment program. An image of the product to be cooked (6) is recorded and a feature of the image resulting from at least one colour space value of at least one pixel of the image is extracted. According to the invention, over a certain period, a development over time (20, 20') of at least one feature is recorded, the development over time (20, 20') of the at least one feature is monitored with regard to the existence of a development characteristic (22) and the treatment device is controlled depending on the existence of a development characteristic (22).
