Abstract (en)

[origin: WO2022096860A1] Disclosed herein is a process for preparing an aerosol generating material comprising forming a first composition comprising a first binder and an aerosol former, forming a second composition comprising a tobacco material, a filler and optionally a second binder, combining the first composition and the second composition to form a mixture of the first composition and the second composition, the mixture comprising the first binder, the second binder and the filler in a total amount of between about 5% and about 15% by weight of the mixture and processing the mixture of the first composition and the second composition to form the aerosol generating material.
