Abstract (en)

[origin: WO2022060235A1] The subject of the invention is a method of obtaining hyaluronidase comprising the following steps: comminution, extraction, ballast salting out, filtration, concentration I, incubation, ultrafiltration I, concentration II, ballast salting out, centrifugation, chromatography I gel filtration, chromatography II ion exchange, ultrafiltration II, concentration III, sterilizing filtration and drying. The invention also relates to the product obtained thereby.
