Abstract (en)

Provided is a method for producing a tobacco extract containing a tobacco terpene, the method including: a process 1 that includes preparing a raw material derived from tobacco; a process 2 that includes subjecting the raw material to solid-liquid extraction with an aprotic solvent; a process 3 that includes recovering an organic phase from the process; a process 4 that includes adding a protic polar solvent or an aprotic medium-polar solvent to an extract obtained by removing the solvent from the organic phase, to precipitate or disperse a solid content; and a process 5 that includes removing the solid.
