Abstract (en)
Hydraulic press tool (14) and hydraulic press tool assembly (10) comprising a hydraulic press tool (14) having a work unit (16) with a tool body (44), a handle (46) and a tool head (48) fitted to receive a die set (50) which can be displaced between an open and a closed position to operate a workpiece; a battery unit (18) comprising a battery support (22) and a battery; an electro-hydraulic pump unit (20) with an electro-hydraulic pump casing (32) fitting a reservoir (36) adapted to receive a hydraulic liquid and an electro-hydraulic pump (38) adapted to increase the pressure of a hydraulic liquid; wherein the electro-hydraulic pump unit (20) is powered by the battery unit (18), and wherein the work unit (16) is controlled by the electro-hydraulic pump unit (20). A high pressure hose (54) is provided between the work unit (44) and the electro-hydraulic pump unit (20) such that the work unit (44) is physically separate from the electro-hydraulic pump unit (20), and a power cable (28) is provided between the battery unit (18) and the electro-hydraulic pump unit (20) such that the battery unit (18) is physically separate from the electro-hydraulic pump unit (20).
