Abstract (en)

A dishwasher (10) includes a tub (14) at least partially defining a treating chamber (16), with an access opening. The dishwasher (10) further includes a closure (20) movable between closed and opened positions to selectively close and open the access opening. A method (300) of drying dishes within the dishwasher (10) includes moving the closure (20) to a partially open position between the closed and opened positions.
