Abstract (en)

Gas leakage detection method (100) for at least one combustion appliance (1), in particular a gas boiler, the method (100) comprising: determining (S101) a predicted gas consumption of the combustion appliance (1) based on the operation of said combustion appliance (1); acquiring (S102) gas measuring data based on the measurement of the quantity of combustion gas to be supplied to the combustion appliance (1); and determining (S103) the presence of a gas leakage based on the comparison between the gas measuring data and the predicted gas consumption of the combustion appliance (1).
