Abstract (en)

[origin: WO2022112876A1] The invention is a method for dyeing and/or bleaching hair, including the use of a solution containing hydrogen peroxide and at least one dye belonging to at least one class of polymer azo dyes so as to form a coloured oxidizing solution. The present patent concerns also the coloured oxidizing solution and the mixture in two phases to be mixed at the moment of application, wherein the first phase is said coloured oxidizing solution and the second phase comprises one or more precursors.
