Abstract (en)
[origin: WO2023104978A1] A workpiece carrier having a carrier base (1) and at least one variable-height handle (3), which comprises a crosspiece (11) and two legs (13) and is detachably secured to the carrier base (1), wherein each leg (13) is formed, at least in part, from one or more spacer elements (19), and wherein it is possible to vary the number of spacer elements (19) in the leg (13), and/or it is possible to exchange at least one spacer element (19) for a spacer element (19) of a different height, so that a length of the leg (13) can be varied.
