Abstract (en)
[origin: WO2022117496A1] The invention relates to an elevator system with an installation bracket (30) fixed in an aligned manner in the region of the door-side shaft wall (6.1). Guide rails (8) for guiding an elevator cab (5) arranged in the elevator shaft (4) are fixed or can be fixed on the installation bracket (30), and the installation bracket (30) is fixed or can be fixed solely by means of at least one storey fixing section (31.1, 31.2) in order to fix the installation bracket (30), said at least one storey fixing section (31.1, 31.2) being fixed or fixable to a horizontal surface of the storey floor (10.1, 10.2, 10.3, 10.4).
