Abstract (en)
[origin: WO2022122279A1] A throttle arrangement (13) comprising at least one first throttle element (14) and at least one second throttle element (15), wherein the first throttle element (14) and the second throttle element (15) are connected in series, wherein the first throttle element (14) has a first pressure loss coefficient which correlates positively to the volumetric flow, and the second throttle element has a second pressure loss coefficient which correlates negatively to the volumetric flow.
