Abstract (en)

[origin: WO2022058234A1] The invention relates to an in-line water treatment cartridge comprising a housing in the form of a pressure cylinder, and an inlet and outlet for water. The invention is characterized in that within the housing through which the water flows, there is disposed a reservoir which is in the form of a slack pouch and contains a concentrated salt solution, for the metered addition of salt solution into the water flowing through the housing.
