Abstract (en)
[origin: WO2022123760A1] This flavor inhaler is provided with a housing unit that has high workability. The flavor inhaler is provided with a housing unit which accommodates at least part of a flavor generating product; the housing unit comprises a cylindrical part which surrounds the flavor generating product, and a contact part which is formed from a member different from the cylindrical part and which contacts the flavor generating product housed in the housing unit.
