Abstract (en)

[origin: WO2022129779A1] The invention relates to a cover (22) for a cosmetic product packaging device (10), suitable for being attached to a packaging case (12), which comprises a hollow body (24), the hollow body (24) comprising first resilient interlocking reliefs (40), and a decorative part (28) comprising at least one face (F28) intended to be oriented away from the packaging case (12), with a decoration (48) and second resilient interlocking reliefs (56). The decorative part (28) is attached to the hollow body (24) so as to block an opening (26) of the hollow body (24), by resilient interlocking of the first and second resilient interlocking reliefs (40; 56). The resilient interlocking of the first and second resilient interlocking reliefs (40; 56) is removable without damaging the hollow body (24) or the decorative part (28).
