Abstract (en)

[origin: WO2022128240A1] The invention relates to a belt fastening arrangement (1) for a vehicle, wherein: the belt fastening arrangement (1) comprises a belt strap (2) for a safety belt of the vehicle and a fastening apparatus (3) for fastening the belt strap (2) to a vehicle seat of the vehicle; the fastening apparatus (3) has a first fastening element (4) that is located on the belt strap and a second fastening element (7) that can be and/or is located on the seat; the first and the second fastening element (4, 7) are interconnected; the first fastening element (4) has a cut-out (6) in which the belt strap (2) is secured; and the belt strap (2) passes through the cut-out (6) and forms an endless loop (12). The belt fastening arrangement (1) has a cover device (10) which covers the fastening apparatus (3) in a covering position A. The cover device (10) is held exclusively by the loop (12) of the belt strap (2) in the covering position A.
