Abstract (en)
[origin: WO2022129091A1] The invention relates to a crimping drum (2) for a pressing tool for processing strips (8) of interconnected wire ferrules (81), comprising a housing (3) having a movement axis (31) and a die part (4) arranged thereon, which die part has a nest (42) to accommodate a wire ferrule (81) of the strip (8), the die part (4) being accommodated resiliently and perpendicularly to the movement axis (31) in a receptacle (32) of the housing (3). Furthermore, the invention relates to a pressing tool.
