Abstract (en)  
The present invention relates to a control lever assembly (1) for a marine vessel. Said control lever assembly (1) comprising a stationary base (3), a control lever (2) which is mounted rotatable about a rotation axis (4) on the stationary base (3). The control lever assembly (1) further comprising a rotation sensor (5) which is configured to determine a rotational position of the control lever (2) and a neutral position sensor (6) arranged at the control lever assembly (1) for determining a neutral position of the control lever (2).
