Abstract (en)

[origin: US2022225737A1] An article of footwear includes an upper, a sole structure, and a cleat assembly connected to the sole structure. The cleat assembly includes a plurality of protruding members that extend from a base. Each protruding member includes a side wall that defines a first exterior angle and a second exterior angle relative to the base when viewed from one of a medial side or a lateral side of the article of footwear. The first exterior angle is greater than the second exterior angle.
