Abstract (en)

[origin: WO2022157460A1] The present invention relates to the field of antioxidant compositions containing vitamin C. More particularly, the invention relates to a method for improving the antioxidant activity of vitamin C in aqueous solution, as well as to various compositions comprising super-activated vitamin C, and to a method for the preparation thereof. These compositions can be used in particular in the cosmetic, agri-food, nutraceutical or pharmaceutical fields.
