Abstract (en)

[origin: WO2022156935A2] The invention relates to a method for operating an ambient lighting device (1) of a vehicle (2), the ambient lighting device (1) irradiating at least one light pattern (4) into an environment of the vehicle (2) by means of at least one lighting device (3) depending on a control command. The invention is characterised in that the ambient lighting device (1) is set into a standby mode by inputting an operational action, the ambient lighting device (1) emitting light as an authorised person approaches the vehicle (2) whilst the ambient lighting device is operated in the standby mode.
