Abstract (en)
Disclosed is a cooking apparatus in which a plurality of glasses may be partially replaced by a disclosed glass structure. The cooking apparatus includes a main body having a heater, a first glass disposed on an upper side of the heater and arranged for a food container to be disposed on the upper side, a second glass disposed in the same line as the first glass, and a coupling device arranged for the first glass and the second glass to be detachably coupled, the coupling device, a first coupling member including a first coupling portion secured to a lower portion of the first glass to support at least a portion of the first glass and the second glass, and a second coupling member including a second coupling portion secured to a lower portion of the second glass, and arranged to be detachably coupled with the first coupling portion.
