Abstract (en)
[origin: WO2022161947A1] The invention relates to a system for launching targets for sport shooting, comprising, one after the other in an alignment direction, a first target throwing machine, a second target throwing machine and a third target throwing machine, each of the first, second and third machines comprising: - a launch unit (3), which is rotatably movable relative to a base; - a launch arm (32), which is rotatably movable relative to the launch unit (3); the target launching system being characterised in that the base (110) is shared by the first, second and third target throwing machines, and in that it comprises a stand (100) on which the shared base (100) is rotatably movable along a base axis (112).
