Abstract (en)

[origin: WO2022167501A1] The present invention relates to a piston for a piston pump, in particular a piston compressor, comprising a piston base body (1) and a piston head valve (3) having a reed valve plate (31), wherein the reed valve plate (31) is fastened with a collar ring (4) to the piston base body (1). The invention also relates to a method for producing a piston, to a piston pump, in particular a piston compressor, comprising a piston according to the invention.
