Abstract (en)

[origin: WO2022171944A1] The invention relates to a motor vehicle structure (2) comprising a floor (4); two front beams (10.1, 10.2) extending longitudinally from the front of the floor under a front portion of the floor (4); two lateral beams (12.1, 12.2) extending longitudinally under the floor (4) from the front portion of the floor; wherein each of the two lateral beams (12.1, 12.2) has an exterior longitudinal overlap with one of the two front beams (10.1, 10.2) that is adjacent, and is secured to the front beam by a transverse casing (14.1, 14.2).
