Abstract (en)

[origin: WO2022198235A1] Disclosed herein are beverage dispensing apparatuses for selectable gas-infused beverage dispensing. The apparatus may have a faucet assembly, a beverage storage unit, a gas storage unit, a liquid/gas infusion unit, and an infusion valve. The faucet assembly may have a housing, a nozzle, a supply valve, and a dispensing valve, configured to control a flow of beverage through the faucet assembly. The beverage dispensing apparatus may use the infusion valve to selectively infuse a selected level of gas within a dispensed beverage.
