Abstract (en)

[origin: WO2022171858A1] The invention relates to a system (1) and a retrofit kit for a goods storage device (5). In order to make it easier for a person to use the goods storage device (5) when adding and/or removing stored goods, the system (1) comprises a light strip (2) and a control device (3), the control device (3) being designed to control a first portion (2a) of the light strip (2) in such a manner that the first portion (2a) illuminates differently than a second portion (2b) of the light strip (2), the control device (3) also being designed to adapt the length of the first portion (2a) along the light strip (2) to the size of a stored good to be added or removed, and/or to adapt the position of the first portion (2a) along the light strip (2) to the storage location of a stored good to be added or removed.
