Abstract (en)
A compressor (7, 12) for an air pressure system of a rail vehicle (1), an air supply unit comprising such a compressor, a system comprising a HVAC system for a rail vehicle and the air supply unit, and a method for providing air for the air pressure system are provided. The compressor (7, 12) comprises an intake duct (10) configured to be connected to a HVAC system (2) of the rail vehicle (1) for enabling flow of process air conditioned by the HVAC system (2) from the HVAC system (2) to the compressor (7, 12).
