Abstract (en)  
[origin: WO2022175557A1] The present invention relates to a method for the treatment of aquatic animals, such as fish or prawns, in particular for the purpose of improving the bodyweight gain of the animals or for the purpose of reducing the conversion ratio of the feed used to feed the aquatic animals without reducing their bodyweight gain. The present invention further relates to feed compositions, methods for their production and uses thereof.
