Abstract (en)

[origin: EP4005557A1] The present invention deals with a method for preparing a solid premix comprising cryomilling a composition comprising one or more amphiphilic compounds and one or more water-soluble solutes. The invention aims at a method for preparing a nanosystem vehicle, preferably a vesicular nanosystem, comprising cryomilling a composition comprising one or more amphiphilic compounds and one or more water-soluble solutes in order to obtain a solid premix and dispersing said solid premix into an aqueous medium.
