Abstract (en)
[origin: CA3222634A1] The invention relates to a net for baling presses with basic weaves consisting of meshes formed by threads and connected to a weft. The basic weaves are formed as fringes and the net comprises less than 49 fringes. The net has a breaking strength of more than 2300 N, preferably more than 2550 N, in particular more than 2800 N.
