Abstract (en)

[origin: WO2022175023A1] The invention relates to a pump device (104) for a steering device (102) of a vehicle (100), having a pump (112) for pumping a working medium to a first outlet connection (114) or alternatively to a second outlet connection (116), an electric motor (118) for driving the pump (112), and a housing (200), through which the first outlet connection (114) and the second outlet connection (116) are guided and which is arranged about the pump (112) and the electric motor (118).
